

Recorded Audition Policy

Queensland Symphony Orchestra accepts recorded auditions from applicants who cannot travel to Brisbane for a live audition. We recommend that it is in an applicant's best interests to present a live audition if at all possible. Queensland Symphony Orchestra accepts audio/visual recordings only. We do not accept recordings that are audio only. We recommend audition applicants who intend to submit a recorded audition use the best quality video and audio format available to them for recorded auditions.

- Recordings of each solo work or excerpt shall be made in one single unedited take with no electronic enhancement.

Declaration Form

Recordings will not be eligible to audition unless they are accompanied by a signed *Recording Declaration Form*, ensuring that each take was made without any editing or enhancement processes. Please also include your *Recording Declaration Form* when transferring recordings electronically.

Format

Your audition recording can be submitted via an online file sharing platform (e.g. WeTransfer, Dropbox, Google Drive). Recordings may also be submitted physically on a USB Flash Drive (Thumb Drive) or similar media.

Applicants are reminded that providing a recording of the highest possible sound quality will ensure that the audition panel is afforded the best opportunity to judge an applicant's playing.

Each excerpt and concerto movement *must* be listed as a separate track on the recording for ease of playback. QSO reserves the right to refuse recorded auditions that do not meet these criteria.

Production

Applicants should also be aware that the production values of a recording may have a much greater effect on the sound quality than the recording format. Please avoid recording in a poor sound environment e.g. excessively reverberant (such as a cathedral), poor acoustics, noisy space.

Logistics

Recorded auditions must reach Queensland Symphony Orchestra by the date advised. Recordings that arrive after this time will not be considered for the audition.
